Day 1
Basic Of Computer

Day 2
Client server model

Day 3

Languages
Introduction to JS
Features of JavaScript
JavaScript -Variables
Data types
Dialog boxes
Alert,Prompt,Confrim

Day 4

Javascript - Operators
Arithmetic Operators
Relational Operators
Logical Operators
Assignment Operators
Special operators -typeof ,new

Day 5

Control structures
if
if else
switch
Ternary operator

Day 6
Loops
for loop
while loop
do while

Day 7 , 8
Functions
user define function
built in function
Named function
Anonymous function
Immediately invoked
Function Expression
Arrow function
Callback

Day 9 , 10

Array
Array literal
Array constructor
Array methods:
push,pop,shift,unshift
spilce,slice

Day 11 , 12

Object
various ways of object creation
dot notation
Array notation
for in loop
function constructor

Day 13 , 14
OOPS concept
Dom
DOM functions
day 15,16
Events
Event handling

Day 15 ,16

Events
Event handling

Day 17
ES-6features:
New ES6 syntax
Introduction,
let ,const
Default parameter,
Rest parameter,
Spread operator,
for of
Template Literals

Day 18

Arrow Functions
Destructuring
Array ,object

Day 19

ES6 Modules

Day 20

ES6 Classes
Promises
ES6 collections
